

GEORGIA MINING FOUNDATION 2024 SCHOLARSHIP PROGRAM

This is the thirty-seventh year of the Georgia Mining Foundation Scholarship Program. The Foundation offers our scholarship programs to students in Georgia high schools where an association member has operations and at Georgia technical colleges. We hope to have excellent participation from our mining and associate members to make our scholarship programs successful.

If you or your company is interested in participating in the scholarship program, please indicate below the number of scholarships you wish to fund, which program you would like to participate in, which areas or schools you would like your scholarship to be given in and return this form with your payment to the Foundation office by **January 5, 2024**. A timely response to the before mentioned deadline would be appreciated so that the releases announcing the program and the applications can be sent to the participating counties and schools.

With your assistance and commitment, the Foundation will be able to award more than seventy high school and technical college scholarships sometime in March. Deadline for student applications will be February 23, 2024.
